Meeting with Mr. Nichols, Assistant Secretary of State for Western Hemisphere Affairs, and Mr. Gonzalez, Special Assistant to the President and Senior Director of the National Security Council, September 30, 2021, Embassy of Haiti, Tabarre

I. Presentation of N ap #Mache Pou Lavi (Walk for Life)

Emerged in November 2020, N ap #Mache Pou Lavi (Walk for Life) is a civil society platform bringing together, among others: human rights organizations, youth, women, trade unions, popular, renowned personalities, lawyers, the federation of bars.

On December 10, 2020, on the occasion of International Human Rights' Day, N ap #Mache Pou Lavi (Walk for Life) carried out its first activity: March to demand respect for the right to life. This march was aimed particularly at denouncing the massacres and the vertiginous rise in kidnapping. Since then, N ap #Mache Pou Lavi (Walk for Life) has become a pioneering institution for the cause of democracy and the rule of law in Haiti.

Since March 2021, it has been engaged in a process of exchanges with political parties so that they can reach a political agreement to the crisis. Thus, the agreement was reached: "**Agreement of June5.**"

The assassination of the de facto President Jovenel Moïse on the night of July 6 to 7, 2021 has created: "A crisis within the crisis". N ap #Mache Pou Lavi (Walk for Life) continues its approach so that the remaining third of the Senate (ten), appointing its president, Mr. Joseph Lambert, as President of the transition (Resolution of July 9), the de facto Prime Minister Ariel Henry, the signatories of the National Memorandum of Understanding (PEN) and those of the Montana Accord can come together and come to a consensual agreement for the good of the country.
